ABOUT THE ARTIST

Hi, I'm Bini. I turn *canvases, walls, leather* and live crowds into portraits and stories.

I've worked as an artist in Dubai since 2019, specialising in realism and custom artwork. My work moves between quiet, detailed charcoal portraits and large, loud murals, and I spend a lot of time drawing in front of an audience at events.

I trained as a civil engineer before art became my career, and that discipline still shows in how I plan a piece: careful sketches, the right materials for colour, texture and strength, and a finish that lasts.
